Portfolio: <https://abdillah-ally.vercel.app> | LinkedIn: <https://www.linkedin.com/in/abdillah-ally>

Professional Summary

Full Stack Engineer with 3+ years of experience designing, developing, and deploying scalable, user-centric web and mobile applications. Strong expertise in modern JavaScript frameworks, backend APIs, and full software development lifecycles. Passionate about clean architecture, performance optimization, and delivering solutions that drive real business impact.

Professional Experience

- **Full Stack Web Developer – Mediabox Burundi (Oct 2023 – Present)**

- Design, develop, and maintain full-stack web applications using React, Node.js, and Laravel.
- Build reusable frontend components and scalable backend services.
- Collaborate with designers and stakeholders to deliver high-performance solutions.
- Improve application reliability through optimization and refactoring.

- **Full Stack Developer – Byams Empire SPRL (Aug 2022 – Sep 2023)**

- Developed and deployed full-stack applications using React and Node.js.
- Implemented RESTful APIs and third-party integrations.
- Contributed to system design and architectural decisions.

- **Frontend Developer – Trust Juris Chambers (Jul 2021 – Jan 2022)**

- Built responsive user interfaces using React.js.
- Integrated frontend components with backend APIs.
- Improved UI consistency and usability across devices.

Education

Bachelor of Science in Software Engineering (BSc IT – SE)
International University of Equator, Burundi (2020 – 2023)

Technical Skills

Frontend:

JavaScript (ES6+)
React.js,
Next.js,
React Native,

Backend:

Node.js,
Express.js,
Laravel,
FastApi

Databases: MySQL, MongoDB

APIs & Authentication: RESTful APIs, JWT Authentication

Tools & Practices: Git, MVC Architecture, Agile/Scrum

AI & Automation: API integration, intelligent workflow automation

Projects

- ✓ **Roomora:** A complete management system for hotels and restaurants, helps hotels and restaurants manage bookings, orders, staff, and billing in one place. It offers real-time dashboards, automated workflows, and detailed reporting to improve efficiency and customer satisfaction.
- ✓ **Hms:** A comprehensive Hospital Management System for handling clinical, administrative, and operational workflows. simplifies hospital operations by integrating patient records, appointments, billing, pharmacy, and laboratory systems. It improves coordination across departments and ensures better patient care.
- ✓ **FlashCargo:** A Cargo Management System (CMS). It's organized so you can drop sections into a project wiki, hand to engineers, or feed into planning tools. FlashCargo is a Cargo Management System (CMS) to manage cargo lifecycle: quoting, booking, pickup, transit, warehousing, customs, delivery, billing and tracking for shippers, carriers, warehouses, and internal operators.

- ✓ **Nyaraka Docs:** document intelligence platform that lets you have natural conversations with your PDFs and Word documents.
- ✓ **TafitiIQ:** Connect your SQL database and explore insights using plain English. No SQL expertise required - just ask questions and get instant visualizations.
